nova™

Merchandising & Display System

A stylish and economical merchandising program engineered to meet the ever-changing needs of today's dynamic, retail environment.

Versatility and style on a budget

Easy to install, use and configure. What more do we need to say? Well, perhaps we should also mention that this versatile merchandising system is also, incredibly cost effective!

Incorporating both wall mounted and freestanding display options the Nova™ merchandising system can be configured, or adapted to suit just about any display requirement.

- 1 Nova™ upright post. 32mm SQ, 40mm pitch, block slot, 2400mmL and 3000mmL flush or wall mounted options available.
- 2 Merchandise support accessories fit directly into the upright post slot and adjust vertically at 40mm intervals.
- 3 The system incorporates a comprehensive range of merchandise, support hardware, which can be configured to suit almost any display requirement.

Interchangeable fittings & hardware

Engineered for flexibility and ease of use the Nova™ merchandising system incorporates a range of fully interchangeable support hardware, which slot directly into the upright profile and adjust vertically at 40mm intervals.

Upright posts are available in 2400mm or 3000mm lengths and can be flush or wall mounted onto a range of surface materials including; timber panels, plasterboard and masonry walls.

Freestanding display options

Providing “all round” merchandising flexibility the system also incorporates 2, 3 and 4 way freestanding display options.

600mm, 1000mm and 1200mm system, support hardware interchanges directly from the Nova™ upright post to fit the centre display units.

As with the wall system, accessories can then be placed into the freestanding unit and adjusted vertically at 40mm intervals.
